Mélange

“a mixture, or a group of different things or people”

Cambridge Dictionary

Congratulations to our 42nd cohort of graduates on the successful completion of their Certificate, Advanced Diploma, Diploma and the Coventry University Bachelor's degree programmes.

“Mélange” is the theme for our October 2019 Graduation Book.

Borrowed from French, the word is one of several French contributions to the English body of words with its meaning as “miscellaneous mixtures”. For Raffles Kuala Lumpur, “Mélange” represents a miscellaneous collection of our students' work from the various disciplines.

Raffles Kuala Lumpur, as a leader in personalised learning through our industry relevant courses, monitors the trends and develop strategies through investments in curriculum and pedagogy to ensure that students are always well prepared for the future. Our curriculum is designed to be industry focused, relevant and empower students to innovate with creativity.

Our graduates with their distinct qualities will set them apart from their peers - as assets to employers and as individuals who are ready to compete in the global market.

A firmly rooted belief in Raffles is that Success is not a coincidence, “Success is by Design”.

Reinforced Humanity

This collection is created to design a new form of abstract protective covering, representing the immense irrelevance of clothing towards Rape crime. The designer strongly stands alongside with rape victims that have been re-victimised through discrimination because of their clothing due to so called "inviting" clothing. This is the reincarnation of the victims beauty in humanity, as it was once stolen.

Fashion Marketing & Management

“You’re on your own. And you know what you know. And YOU are the guy who will decide where to go.” – Dr. Seuss

It can sometimes be overwhelming to think that you’re on your own in the fashion world, but at the same time it gives you the freedom to choose your own career path. You’ve amassed some knowledge at this point, and you are making decisions based on that knowledge. No one else will be able to make your decisions for you, no matter how much advice you may receive. You’ll ultimately be the one that chooses where you’ll end up at.

It’s sometimes hard to remember that you’re the one controlling where you’re going in life. It’s also easy to forget about what you’re doing right now. All those mastery, tact and finesse that we’ve shared and nurtured will shape you for what’s coming towards you in the future. The action you take today will mould the kind of future you’ll have.

Congratulations on your graduation!

FM Field Trip

(Source: Dickson Lim / Fashion Management)

Fashion Management does not rely on academic only but also on practice and skill execution. Field trip is one of the key activities; from exhibition to sourcing and from event planning to execution. Students will be learning how to apply their new knowledge into the retail industry and given opportunity to experience the other side of the fashion world.

Interior Design

To design is like creating a recipe; there is a certain use of basic tools and guidelines. but with experience, a great recipe infuses personal touches, intuition, secret ingredients...
...all meticulously mixed and blended together with a big dollop of desire - a desire to tantalize the appetite for perfection.

Our Interior Design student population; like a mélange of different cultures & flavors got to visit to a commercial restaurant back of house kitchen, CyberJaya Recycling Centre, Niro Granite showroom @ Creative Lab, collaborate with Cosmo Hotel KL, interviewed their alumni on managing ID businesses, consistently winning international awards, and being recognized by ID publications,..... all made possible by a group of dedicated lecturers.

Thank you SueAnn, ms Yeong, Nyla, XR, Cheong, George, Edmund, Dr Ananthan, SuXin and Faiz.

This graduation, we get to see an assemblage of diverse talents and creativities. And like the end of a satisfying meal, one gets to taste a combination of well baked design thoughts served with lots and lots of enthusiasm and dedication.

This series of jewellery is known as Simplex. The term 'simplex' is derived from Latin, and it means "simplicity". These days, people prefer things that are out of the norm in order to stand out from the crowd. Some even idolize things that are unusual. What people do not realize is, sometimes it's alright to be simple, to just go with the flow. Hence, the designs in these series are focused on the word "simple". For the design, the jewellery was fashioned after the Bauhaus style, as it combines simple shapes and colours into different captivating design.

The materials used are silver, different sizes of pearl and different sizes of cubic zirconia.
