

– (Do on it talentedly) Dot represents individual in Raffles. Humans are insignificant beings in the universe just like a thing dot. A dot is considered either the beginning of an element or an end of a line. This similar to our students who started their education journey with us. They were able to begin their next phase of life upon joining Raffles College of Higher Education. The knowledge and skills acquired gradually increased from the basic to advanced level. This is in line with the phrase – connecting the dots which means assimilating information from different places. The knowledge and skills obtained follow their steps from time to time, place to place. It shows the metaphor of idioms—connecting with the dots. It carries the meaning of bringing together information from different places.

You can't connect the dots looking forward; you can only connect them looking backwards. So, you must trust that the dots will somehow connect in your future. You must trust in something—your gut, destiny, life, karma, whatever. This approach has never let me down, and it has made all the difference in my life. – Steve Jobs

## REWIND

REWIND, a multi-wearable clothing brand in Y2K style, was formed by Raffles College Kuala Lumpur students. We got the idea in 2022, and finally the brand made its debut in 2023. The idea of Rewind was considered to allow our consumers be comfortably nostalgic and navigate back to the 2000s.

Rewind provides a range of new multi-wearable clothes that are fashionable yet decent quality. We aim to provide teenagers with a brand new styling experience with our "functional clothing," where they can easily mix and match to create different styles.

Moreover, Rewind delivers the idea of "be you, do you, for you," as we encourage our consumers to do whatever they want, be whoever they want to be, and their first step will be styling confidently with Rewind's.

### **Bangladeshi Bride**

Bangladeshi Bride focused on three main festivities/events of a Bangladeshi wedding in this photoshoot. The first event, called "holud," has a highly cheerful, colourful tone. The second event, the "Wedding," is entirely red. The final event, "Reception," has a very sophisticated, refined, and exquisite theme. The three occasions couldn't have seemed more dissimilar from one another, but the traditional Bangladeshi bride served as the project's overarching concept.

### **The French Minimalist Jewellery**

Since French ladies enjoy fine and delicate pieces, the concept behind my editorial shoot is to combine them with minimalist French jewellery and highlighting the positivism of women by incorporating classic, delicate, and finery feel. ### Sweet Heart High School

Sweet Heart High School was inspired by students' high school memories. This concept will demonstrate their unadulterated friendship in the early 2000s. Everyone in that time desired advanced technologies and sought to advance into the future. The idea behind this concept is to honour and remember the much desired millennium.

## LIVELY

The bold and contrasting colours that were popular in 1980s fashion served as inspiration for the creation of the photography series known as "LIVELY." This project's goal is to demonstrate the concept of "LIVELY" via the use of photographs that are both staged and semi-documentary in style. The neon colour is one of the brightest there is, and the garments that were worn in the 1980s were known for their amazing use of colour. If we've learned anything from the life cycle of trends over the years, it's that everything always comes back into style eventually.

you can only connect them  
looking backwards."

# Interior Design

Most designers will say everything starts with a DOT and are trained to connect DOTS into lines and shapes. Interior Designers will explore these shapes into form and eventually create spaces to improve the quality of life.

While our graduating students were busy connecting these DOTS, the Interior Design Department was busy connecting other dots; workshops, field trips, seminars with Daikin Solution Plaza, Point 21, Cosmo Hotel, Phillip Jeffries (Spore), Kian Furniture, Fiske, Apex Ceramic Gallery, Al Capricorn Stones & Slates Trading and more dots with MIFF & National Art Gallery visits and to KLCC Park for an urban outdoor sketching experience; culminating to a final point in December 2022 with our annual Christmas Pizza luncheon resumed after 3 years hiatus due to the pandemic.

All these DOTS was to provide our students with industry-related collaborative works and to stay true to our mission of getting them ready and relevant.

WELL DONE Interior Design lecturers and a big THANK YOU to all our ever supportive industry partners. CONGRATULATIONS to all our Interior Design graduates – start connecting your DOT and be the "Designer of Life" .

# 1 BRIDGING

MODEL COMPRISES OF STAIRCASES GOING UPWARDS IN 4 DIFFERENT DIRECTIONS TO REPRESENT BRIDGING AND CONNECTIVITY TOWARDS EACH OTHER. THIS METHOD IS APPLIED INTO THE DESIGN WHERE STAIRCASES ARE PRIMARILY USED TO LINK ONE BUILDING STOREY WITH ANOTHER STOREY THAT CAN PROVIDE ACCESS TO THE USERS. IT IS A FORM OF ACCESS.

# 3 MEANDER

MODEL COMPRISES OF A STARTING POINT AND AN ENDING POINT, SUPPORTED BY A LINKAGE BETWEEN THE 2 POINTS THAT FORM THE JOURNEY. ALONG THE JOURNEY, POCKET OF SPACES ARE FOUND TO FURTHER SUPPORT THE ROUTE. THIS DESIGN IS APPLIED INTO THE BUILDING WHERE POCKET OF SPACES FURTHER ENHANCE THE BUILDING CONDITION BY PROVIDING ADDITIONAL SPACES WITH ITS OWN SPATIAL FUNCTIONS. THIS ALLOWS THE USERS TO MEANDER AND DISCOVER THE SPACES AROUND.

# 2 CONGREGATION

MODEL COMPRISES OF SMALL CUBES THAT TAKE THE SHAPE OF HOUSES. THESE HOUSES ARE CLUSTERED TOGETHER TO FORM A COMMUNITY WITH A FEW LAYERS STACKED ONTO EACH BASE LAYER. THIS DESIGN IS APPLIED INTO THE BUILDING BY PROVIDING LIVING SPACES THAT FORM A COMMUNAL LIVING AREA.

# 4 COLLABORATION

MODEL COMPRISES OF SMALL CUBES ARRANGED IN A CIRCULAR MANNER WITH MULTIPLE LAYERS STACKED ONTO EACH EACH THAT FORM A CYLINDER. THE ORIGINAL SHAPE OF THE CUBES GIVES A FORM HEAVIER AND ROUGHER FORM DUE TO ITS SHARP EDGES AND POINTS. HOWEVER, WHEN ARRANGED IN SUCH MANNER, THE CYLINDER APPEARS MORE APPROACHABLE DUE TO ITS SOFTER AND CURVIER APPEARANCE. THIS DESIGN IS APPLIED INTO THE BUILDING THROUGH ARCHES AND CURVES WHERE IT WILL SOFTEN THE BUILDING'S INTERIOR, GIVING IT AN INVITING LOOK.

# Jewellery Design

Jewellery Design is a cross-disciplinary and multifaceted education that explores and analyses the relationship with the human body through "wearable objects"

Through theoretical issues and jewellery technologies, it nurtures exquisite concepts and contemporary ideas in developing research methodologies, design capabilities and technical skills.

More than just an academic discipline, like poetry, it is a window into the soul of humanity and a poignant reminder of our existence and destinies are deeply embedded and intertwined with the environment and lifestyles.

### The Swan

The concept of this collection is to capture the beauty of the swan and its behaviour. Swans are large-bodied waterfowl of the family of Anatidae that live in marshes, lakes, and other wetlands. Swans are intelligent and sharp vision and impeccable hearing. Inspiring by the behaviour of the swans, they form a heart shape while mating which gives a lovely scenery in its beautiful nature. The stunning movements of the swans shows their fair and glowing feathers under the sun. This wearable art of collection brings up the feminine and elegant vibes which are suitable for middle age people.
