Behind the beautiful scenes, no one but yourself knows how hard you squeezed your brain, how many midnight oil you had burnt, how many mockups and test prints you had tried behind the scenes. However, the fruit of your handwork and efforts will be the sweetest harvest.

"On Air" parallels the intent and driving force for creative endeavors, as both are mediums of communication.

Each of the Advanced Diploma in Jewellery Design graduates have found their visual voice in jewellery design and creation. Raffles Jewellery Design students have been able to use one of the most intimate forms of adornment as a vehicle for personal reflection and communication. Through this vehicle of expression they have explored conceptual and intellectual ideas and they have heard their creative muse.

It has been an honour to be one of your lecturer's and to witness your evolution as a designer who is uniquely capable of communicating ideas and passion through the creation of wearable art.

		MY	@	<h2>Reclaim</h2> <p>Throughout my experiences, I have learned that jewellery can change how an individual looks and feels. It is an extension of a person's identity or a creation of a new perception and sense of self, which can rouse interest in others. I came to love jewellery making gradually, with the love for anything arts as its roots. I transform my creative and imaginative ideas into finished wearable art. My passion only grew as I polished my skills and deepen my knowledge from the people and all that surrounds me, serving as resources for inspiration.</p>

## A Wish To Myself

My mini-collection is inspired by goldfish tails moving fluidly. They have an unpredictable, yet rhythmic movement and are a symbol for freedom from inflexible rules. I am able to realize this through graceful line and fluid form. Their vibrant colourful beauty is realized through the use of fancy coloured gems and enamels.

**Slogan**  
Never Stop Learning

**Vision**  
To be a reputable brand among the 16 - 24 young adults to be on-trend with minimalistic approach.

**Mission**  
To be able to provide the customers with quality products and to foster local brand to be on par with the internationals.

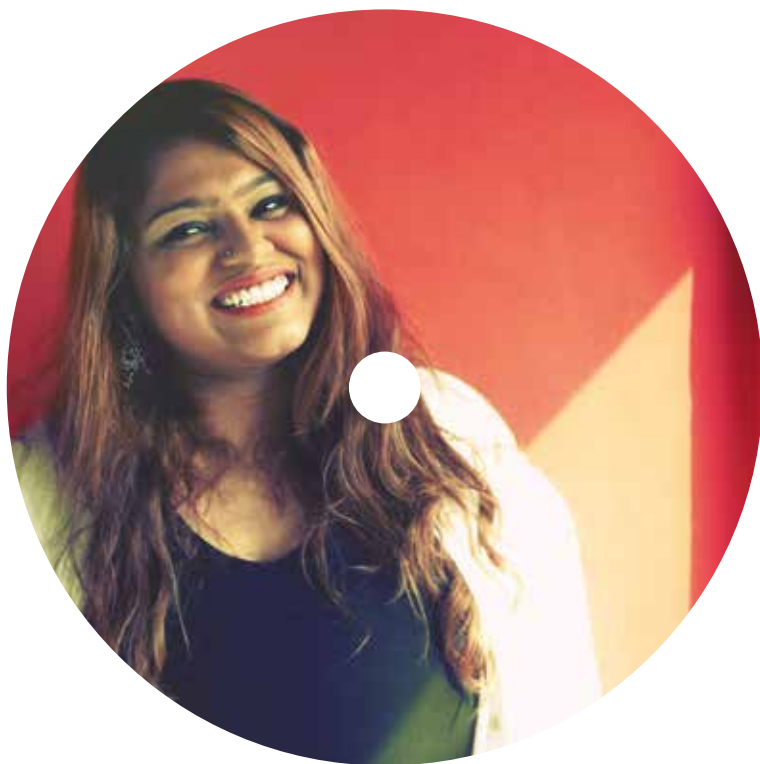

Study

**Brand Profile**  
Established 2016, Study is a unisex apparel and accessories brand solely operated online. Founded by 3 friends having the same liking towards minimalism, we wanted to come up with a brand that not only benefits ourselves but to all young adults. Study basically means to learn a subject or to examine something very carefully which defines our brand, a brand that is constantly learning and discovering new trends and styles. We are a brand that let fashion and quality unite, uncompromised and simplified.

As students, we go through struggles of having to choose what to wear and we know how daunting that can be early in the morning because we have been through it! That's where the idea of our brand came along. Thus, creating the notion of 'by students for students'. Our designs are clean and simple with very neutral colors and minimal prints that assimilates 'student-related things'. Having that said, we also carry a small range of accessories and stationeries catered to both male and female students.

**Slogan**

### EverLasting

Pressing flower is about preserving the beauty of the moment. People tend to hold on to items with sentimental value and try to immortalise the items by drying or pressing the leaves or flowers. Hence, the skeleton of dried leaves represents blessing for the newlyweds and the earth tone colour symbolises the beauty of nature.
